(54) Title: PROCESS FOR PRODUCING CARBONACEOUS MATERIALS

(57) Abstract: The present invention is directed to the formation of unique carbonaceous materials and a new segregated manufacturing business of carbonaceous material. In particular, the invention is directed to using a flexible reactor (1) in which spray or vapor can be used to form carbonaceous materials (28) and also in combination with inorganic material (6) to enable performance enhancement of products made using these materials.
